Forward-Looking Statements

This presentation includes “forward-looking statements” within the meaning of the federal securities laws, which involve risks and uncertainties. Forward-looking statements include all statements that do not relate solely to historical or current facts, and you can identify forward-looking statements because they contain words such as “believes,” “expects,” “may,” “will,” “should,” “seeks,” “intends,” “trends,” “plans,” “estimates,” “projects” or “anticipates” or similar expressions that concern our strategy, plans, expectations or intentions. All statements made relating to our estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and financial results are forward-looking statements. These forward-looking statements are subject to risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, it is very difficult to predict the effect of known factors, and, of course, it is impossible to anticipate all factors that could affect our actual results. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that the results or conditions described in such statements or our objectives and plans will be realized. Important factors could affect our results and could cause results to differ materially from those expressed in our forward-looking statements, including but not limited to the factors discussed in the section entitled “Risk Factors” in Summit Inc.’s Annual Report on Form 10-K for the fiscal year ended December 31, 2016, as filed with the Securities and Exchange Commission and the following: our dependence on the construction industry and the strength of the local economies in which we operate; the cyclical nature of our business; risks related to weather and seasonality; risks associated with our capital-intensive business; competition within our local markets; our ability to execute on our acquisition strategy, successfully integrate acquisitions with our existing operations and retain key employees of acquired businesses; our dependence on securing and permitting aggregate reserves in strategically located areas; declines in public infrastructure construction and delays or reductions in governmental funding, including the funding by transportation authorities and other state agencies; environmental, health, safety and climate change laws or governmental requirements or policies concerning zoning and land use; conditions in the credit markets; our ability to accurately estimate the overall risks, requirements or costs when we bid on or negotiate contracts that are ultimately awarded to us; material costs and losses as a result of claims that our products do not meet regulatory requirements or contractual specifications; cancellation of a significant number of contracts or our disqualification from bidding for new contracts; special hazards related to our operations that may cause personal injury or property damage not covered by insurance; our substantial current level of indebtedness; our dependence on senior management and other key personnel; and interruptions in our information technology systems and infrastructure. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by these cautionary statements. Any forward-looking statement that we make herein speaks only as of the date of this presentation. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as required by law.

Non-GAAP Financial Measures

Included in this presentation are certain non-GAAP financial measures, such as Adjusted EBITDA, Further Adjusted EBITDA, Adjusted Net Income (Loss), Adjusted Earnings Per Share, Adjusted Cash Gross Profit, Adjusted Cash Gross Profit Margin, Net Debt, Net Leverage and Free Cash Flow designed to complement the financial information presented in accordance with U.S. GAAP because management believes such measures are useful to investors. These non-GAAP financial measures should be considered only as supplemental to, and not superior to, financial measures provided in accordance with GAAP. Please refer to the appendix of this presentation for a reconciliation of the historical non-GAAP financial measures included in this presentation to the most directly comparable financial measures prepared in accordance with GAAP.

Reconciliations of the non-GAAP measures used in this presentation are included or described in the tables attached to the appendix. Because GAAP financial measures on a forward-looking basis are not accessible, and reconciling information is not available without unreasonable effort, we have not provided reconciliations for forward-looking non-GAAP measures.

Significant Benefit From Federal Tax Reform

Estimated TRA Liability Reduced By 40%; Benefits FCF

Estimated TRA Liability Significantly Reduced Post Tax Reform

Expect To Pay No Federal Taxes For The Foreseeable Future; No Significant TRA Payments Expected For Eight Years ⁽¹⁾

- A lower statutory tax rate reduces the value of deferred tax assets; TRA liability is also reduced accordingly
- Extended bonus depreciation provisions in future years, expected to result in lower taxable income in those years
- The amount of deferred tax benefits we recorded under our TRA will be delayed to future years
- No meaningful limitation on interest expense deductions during the next five years
- Expect to continue to pay no federal income taxes; anticipate no significant TRA payments until 2026 (previous est. of 2020)

(1) The Tax Cuts and Jobs Act (TCJA) lowers corporate tax rates, imposes limitations on interest deductions and the use of net operating losses, and provides the most significant overhaul of the U.S. tax code in more than 30 years. The TCJA was passed on 12/20/17 and signed into law by President Trump on 12/22/17.

2018 Outlook

Expansion In Private Continues; Public Rebounds

- **Federal Tax Reform.** \$217 million estimated reduction in TRA liability – significant FCF benefit
- **Sustained Growth In Private Markets.** Expansionary phase in residential + low rise non-res
- **Public Markets Accelerate.** Rebound from '17 decline; Increased federal + state funding
- **Targeting Organic Growth.** 2018 CAPEX budget weighted toward high-return organic growth
- **Margin Expansion.** Further optimize price, volume and cost in the system
- **Maintain Capital Discipline.** Remain well capitalized/opportunistic investor throughout the cycle

- (1) Last twelve month ("LTM") information corresponding to fiscal years (i.e., the periods ended December 30, 2017, December 31, 2016, January 2, 2016) reflects our audited historical results for such fiscal years presented in accordance with U.S. GAAP. Information presented for other LTM periods (i.e., September, 30, 2017, July 1, 2017, April 1, 2017, October 1, 2016, July 2, 2016 and April 2, 2016) reflect unaudited trailing four quarter financial information calculated by starting with the results from the most recent audited fiscal year included in such LTM period and then (x) adding quarterly information for subsequent fiscal quarters and (y) subtracting quarterly information for the corresponding prior year period. For example, LTM September 30, 2017 has been calculated by starting with the data from the twelve months ended December 31, 2016 and then adding data for the nine months ended September 30, 2017, followed by subtracting data for the nine months ended Oct. 1, 2016. This presentation is not in accordance with U.S. GAAP. However, we believe this information is useful to investors as we use it to evaluate our financial performance for ongoing planning purposes, including a continuous assessment of our financial performance in comparison to budgets and internal projections. We also use such LTM financial data to test compliance with covenants under our senior secured credit facilities. This presentation has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. Please see our Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q for the relevant periods for the historical amounts used to calculate the LTM information presented.
- (2) EBITDA for certain completed acquisitions is pro forma for all acquisitions completed as of the date listed
- (3) Further Adjusted EBITDA is calculated using trailing four quarter financial data to test compliance with covenants under our senior secured credit facilities
- (4) Adjusted EBITDA margin defined as Adjusted EBITDA as a percentage of net revenue
